SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT  
UNDER 37 C.F.R. § 1.97

Commissioner for Patents  
PO Box 1450  
Alexandria, Virginia 22313-1450

Sir:

Please find, pursuant to 37 C.F.R. § 1.98(a)(1), the enclosed Form PTO-1449 which contains a list of all patents, publications, or other items that have come to the attention of one or more of the individuals designated in 37 C.F.R. § 1.56(c). While no representation is made that these references may be "prior art" within the meaning of that term under 35 U.S.C. §§ 102 or 103, the enclosed listed references are disclosed so as to fully comply with the duty of disclosure set forth in 37 C.F.R. § 1.56.

Moreover, while no representation is made that a specific search of office files or patent office records has been conducted or that no better art exists, the undersigned attorney of record believes that the enclosed art is the closest to the claimed invention (taken in its entirety) of which the undersigned is presently aware, and no art which is closer to the claimed invention (taken in its entirety) has been knowingly withheld.

In accordance with 37 C.F.R. §§ 1.97 and 1.98, a copy of each of the listed references or relevant portion thereof that is not a US patent document is also enclosed.

Statement of Relevance of References Listed  
Unaccompanied by English Translation  
Under 37 CFR § 1.98(a)(3)

In accordance with 37 CFR § 1.98(a)(3), the following concise explanation of the relevance of each listed reference that is not in the English language and unaccompanied by a translation into English is provided.

European Patent Application No. EP 0 098 519: The device for ball games and the like, in particular for tennis, comprises several signal transmitters (I to VII), each of which responds to a component of force, which is characteristic of the racket grip or of the sequence of movement of the racket during a stroke, by emitting a signal. The signals emitted by the signal transmitters (I to VII) are analyzed in a processing circuit and processed to form an overall indication which informs the player either acoustically or visually whether the handling of the racket was correct or incorrect during the execution of a stroke cycle.

French Patent No. FR 2 513 752: Appears to disclose a sensor system for use in controlling movement of a tennis racket as depicted in Figures 1-11b.

STATEMENT UNDER 37 C.F.R. § 1.97(e)

I hereby certify that each item of information contained in the accompanying Information Disclosure Statement was first cited in any communication from a foreign patent office in a counterpart foreign application not more than three (3) months prior to the filing of this Information Disclosure Statement.

Dated this 4<sup>th</sup> day of September 2007.

Respectfully submitted,

/Dana L. Tangren/ Reg # 37246
